

**Ulysses 2020  
Frequently Asked Questions  
Version 1 – 10 November 2020**

Similar questions have been grouped under the following headings:

1. Eligibility
2. Applying to the programme
3. Conditions of award

**1. Eligibility**

Can masters students be part of the research team?

Yes, students studying for a research master's can be included as part of the team. Applicants should submit a CV (one page maximum) for each of the team members referenced in the application.

Can team participants traveling to Ireland be based at a different French institution from the one of the Lead French Applicant?

This is permitted. Funds will be awarded to the project leader's host institution. The project leader, together with their host institution, will be responsible for distributing funds to the other members of the research team.

Can PhD students apply for the Ulysses awards?

The Ulysses scheme is open to doctoral research students.

Could you confirm if the Ulysses programme is open to projects in the social and political sciences?

The Ulysses scheme facilitates the exchange of innovative ideas and approaches between Irish- and French-based researchers across all disciplines.

Can an Irish applicant submit two Ulysses applications each with a different French institution?

Applications will be deemed ineligible and will not be considered for funding if an applicant submits more than one application to the call.

Our applicant was named on a former Ulysses award, where he was collaborating with the PI and travelled as part of the award, however he was not the awardee / lead applicant. The rest of the participants are all different, and the projects are entirely distinct. Could you clarify whether he needs to include the additional page with an outline on the project? My understanding would be that the answer to the question above should be NO because he was not the awardee, but can you confirm if this is correct?

This approach described above is correct — the synopsis of previous Ulysses funding should only be included where the applicant was the successful project leader.

I have identified a prospective partner in France, he is a retired Professor but he is still very much research active and remains associated with the institution. Will he be eligible as a project leader?

French partners should contact Campus France at [www.campusfrance.org](http://www.campusfrance.org) to determine their eligibility.

Can you please let me know if applicants from Northern Ireland are eligible?

Applicants based in institutions in Northern Ireland are not eligible to apply. Only applicants from institutions in the Republic of Ireland are eligible.

One of our researchers is involved in a project with a French collaborator and would be very keen to avail of Ulysses funding to send a doctoral student to the collaborator. However, they are not sure if the student will be in place by the closing date for this year's scheme. Would it be possible for them to submit an application or is this unworkable?

All applicants listed on the application form would need to be in place by the time the call outcome is announced i.e. June 2021.

## 2. Applying to the programme

There is no requirement to submit an Excel spread sheet file as it was the case before, is that right?

There is no requirement to submit an Excel spread sheet file. Please refer to the Ulysses' Terms and Conditions, in particular section 5 Application Procedure, and the Ulysses Application Form for application submission criteria.

There is no requirement to submit a hard copy of the application in addition to the electronic submission, is that correct?

There is no requirement to submit a hard copy of the application in addition to the electronic submission.

## 3. Conditions of award

**\*\*NEW\*\*** Can the award amount be budgeted to facilitate only travel and accommodation costs or is it possible to cover costs for experiments carried during the visits?

For reasons relating to Covid-19 If one government maintains some form of travel ban: laureates will be allowed to spend 25% of their grant in 2021 on other expenses research expenses to help with the collaboration in place of travel.
