

# LINDAU NOBEL LAUREATE MEETINGS

## Selection Criteria

### for the 74<sup>th</sup> Lindau Nobel Laureate Meeting on Chemistry

The 74<sup>th</sup> Lindau Nobel Laureate Meeting will be taking place from 29 June to 4 July 2025. Nobel Laureates in Chemistry and about 600 highly talented Young Scientists will be invited to join a unique week of scientific exchange, inspiration, and networking during lectures, panel discussions, and small-size discussion sessions.

Young Scientists to attend the Lindau Meeting will be selected globally among (1) undergraduate students, (2) master and doctoral students, and (3) young postdoctoral scientists in the field of Chemistry and closely related disciplines.

The following criteria must be met at the time of application:

All applicants shall

- demonstrate excellence in their principal field of studies,
- receive very strong support of their application by academic advisors and/or internationally renowned scientists, who know the applicant well (two detailed recommendation letters are required),
- have engaged in extracurricular activities,
- be fluent in English,
- not have participated in a previous Lindau Meeting,
- commit themselves to being present in Lindau for the full duration of the meeting,
- be prepared to actively participate in discussions with Laureates and Young Scientists,
- submit the completed online application form before the deadline in November 2024, including a comprehensive academic CV and recommendation letters (please note that incomplete applications cannot be taken into consideration).

We welcome applications from:

(1) Undergraduate students, who

- exhibit a solid knowledge in Chemistry and related disciplines,
- demonstrate independent research experience.

(2) Master and doctoral students, who

- have performed excellent research, documented, for example, by publications, conference presentations, grants or other academic awards.

(3) Postdoctoral scientists, who

- are at an early career stage (i.e. up to 5 years of postdoctoral experience) and do not yet hold an independent group leader position,
- have presented their work at international scientific meetings, preferably as (invited) speakers,
- have published excellent research, in refereed journals as first, last, and/or corresponding author.
